

School Facilities

VLMA - pick up is working - hopeful it continues as campus opens to families

I like how they have keep the school clean and renovated after two years of not been there. Big shout to Mr. Anthony Monterey Heights!

I like how every kid gets a personal chromebook.

2 parents mentioned - Their students often complain about the restrooms not being clean and that they are not well maintained.

En mi caso me gustaria que los banos de la escuela estuvieran limpios en cada momento/ I would like to see the bathrooms at the school cleaned more regularly

I love the infinite campus App, it is easier to keep an eye on my kids grades.

Murals across the district are beautiful!

My son is at LGAM and he said the food is getting better and now he is having lunch at school.

I would like to see a running trail on my son school at LGAM, since they have to run the mile every Friday.

deportivos/sports

Technology

New classrooms board and computer applications

IC app to keep track of child's grades

Generally like the Class Dojo app

All students had a chromebook at home previously

Many Class Dojo messages repeated - hard to keep track - limit districtwide messages

My daughter was pretty excited about their new digital boards in her classroom

I love that Class Dojo keeps me informed of my daughter's progress. And I can communicate with the teachers as well.

comunicacion que hay por medio classdojo. Cualquier duda que tengas con tus hijos siempre estan al servicio para contestar./I really like the communication via classdojo. Whatever question you have about your children they are their

Food Services

LGAM student likes the new food - is now eating at school (previously did not).

Likes the improved quality of food. Less carbs and more vegetables.

We have quite a few students that are vegan or have dietary restrictions related to their religion. Their options are very limited. Many parents have expressed a desire for different options

My children are picky eaters, and some times come home hungry because they say their food was soggy

Would like more fresh fruit and vegetables.

More vegetarian options would be great- usually it is yogurt everyday

Our students are into the new food options!

Daughter and friends like the variety being offered to them.

So e la comida me gustaria mas saludable, fresca y sobretodo no procesada./I would like to see more healthy fresh food, and above all not processed

En lo personal me gustaria ver las cafeterias limpias siempre que los ninos vayan a tomar sus alimentos y tambien en la area done comen.
